Remote-Control Services

## Show Me Creativity

**LG CreateBoard Studio Lab** offers multi-touch whiteboard and collaboration options for immersive learning.

- User-friendly interface designed with teachers in mind
- Offers templates, graphics, and design tools for content creation
- Powers interactive lessons, gamification, and other activities
- Aligns with curriculum goals to enhance learning

## Show Me Sharing

**LG CreateBoard Share** features wireless casting and seamless connectivity to make screen sharing and interaction a breeze.

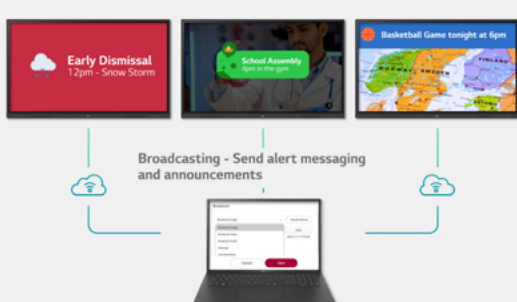

- Offers QR code scan for fast and easy login
- Supports a range of wireless connections including native Chromecast, Miracast, or Airplay
- Supports real-time content markup with annotation tools and touch-back control
- Makes it easy to screen broadcast across student devices

## Show Me Management

**LG ConnectedCare DMS** is built to give you seamless, cloud-based control of your LG display ecosystem, from one dashboard.

- Powers schoolwide display management from a central hub
- Makes it easy to broadcast alerts and important messages across a school or district
- Monitors devices in real-time and initiates schoolwide firmware updates
- Ensures stable operation with remote-control services

## Why LG?

Learning is resilient, adaptable, and creative. With LG Business Solutions, so is the tech that powers it.

Innovation

We help schools advance the quality, accessibility, and impact of education—for over 60 years and counting.

Reliability

We're the trusted leader for complete display solutions and cutting-edge interactive tech.

Support

We provide robust service and support to keep classrooms running smoothly.

Experience

We enable teachers to engage, inform, and inspire students with versatile, easy-to-use solutions.

Find out just how easy it is to immerse, engage, and inspire students with **LG CreateBoard**.
