

# Modernize STEM Initiatives with Innovative Technology

## Help Students Get Ready for the Future

Connection believes in providing the best STEM experience possible—and so does our partner network. These classroom solutions, backed by our services, offer some of the most up-to-date classroom technologies available. Pursue your education initiatives while adding connectivity, mobility, and power to your entire classroom without changing your existing infrastructure and help your students get ready for the future.

### Device Management

Add Microsoft 365 Education to each device in your environment with Intune for Education for device management, Office 365 Education for productivity, and Windows 10 upgrade rights.

**Lenovo 100e** is the perfect choice for students. It is easy on the pocket and built rugged to withstand bumps and drops, with a spill-proof anti-peel keyboard. Plus, it's easy on the budget—starting at just \$179 for K-12 schools.

### Bretford Juice Mobile Power

turns a single wall outlet into a powerful, flexible mobile charging solution. It provides safe DC charging for an entire room at a fraction of the cost of a retrofit.

**Actiontec Screenbeam 960** is an enterprise-grade wireless display receiver that gives Windows, Android, and MacOS users the flexibility to present from anywhere in the room.
