creative, and graphical or computational

complex applications, they need ultra-premium

innovation in intelligent designs. Upgrade them

compartments and protection on-the-go.

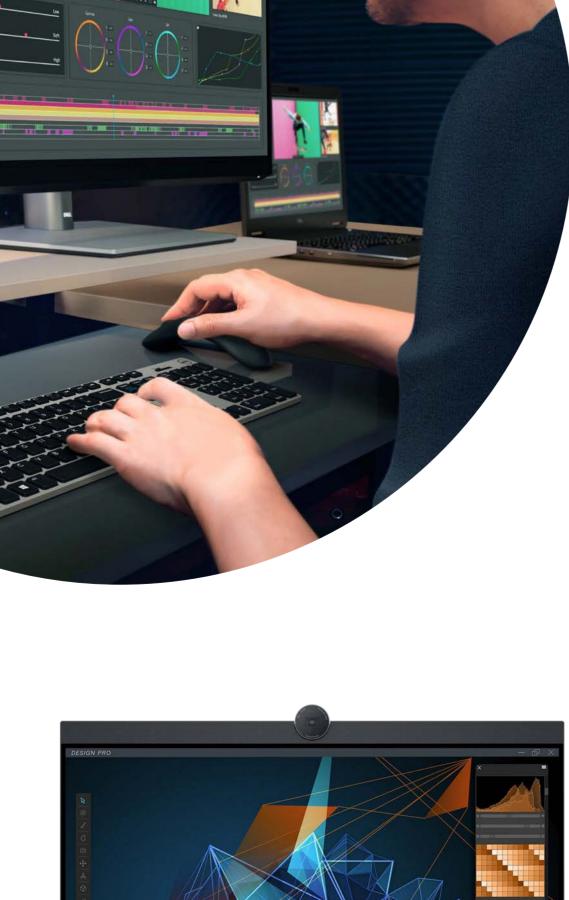

2022

Microsoft Teams-certified video conferencing monitor with groundbreaking IPS Black Technology and an intelligent 4K

¹ This product is spill resistant, but not spill proof. Water damage is possible if the product is submerged or exposed to large amounts of liquids for long periods of time. Dell's limited hardware warranty does not cover problems resulting from accidents such as water damage. To prevent water damage resulting from large spills or other accidents, Dell recommends tilting or shaking off excess liquid, wipe off and let dry. ² Based on keyboard abrasion test and on common chemical product resistance test conducted in Aug'21. Tested for only common household

chemicals. Usage conditions may differ. Test conducted by third party. ³ Most intelligent' based on the Dell Speakerphone being the only Microsoft Teams certified speakerphone with Al noise-cancellation. Based on comparative analysis of Microsoft Teams-certified speakerphones: Microsoft USB C Speakerphone, Jabra Speak 410, Yealink CP700, PolySync 20 and Jabra Speak 750. ⁴ Based on internal analysis of external 4K personal conferencing webcams, April 2021. ⁵ Based on an independent user study of 20 experienced webcam users commissioned by Dell. Participants evaluated the brightness, color saturation

webcam that provides automatic focus and enhanced visual clarity.
