Achieve Your Goals

Utilize Connection's extensive catalog of Apple products and services to offer programs that set you apart from other education institutions.

- Leverage technology that promotes productivity and learning to improve admin, faculty, and student life.
- Boost confidence with best-in-class security practices.
- Increase IT's ROI on allocated time and resources.
- Create a plan to embrace AI and Apple Intelligence™.

Our Teams Can Help

Partnerships matter.

- Connection has a team of Apple experts—as well as our trusted partners—who will guide you through every step of the journey.
- Receive tailored recommendations and timely updates to keep your projects on track.
- Have projects that require specific device builds? Our teams will handle the logistics to ensure you have the devices you need, when you need them.

Purchasing Simplified

Let us show you why customers prefer Connection's eProcurement tools.

- Create purchasing standards and unique access for various departments within the organization.
- Easily customize device configurations for specific user needs.
- Integrate your preferred contracts and ERP systems.
- Gain direct access to a team member to verify availability and fulfillment expectations.
- Create product bundles and ship directly to the end user without your IT department touching the device.

Deploy, Refresh, and Repeat

Renew technology with Connection's Lifecycle Services.

Purchase on terms that meet your refresh strategy so you can maximize asset value and retention.

- Combine devices, software, and services into one single payment.
- Online asset management tools make it simple to return equipment—or offer it to students and staff for purchase—at the end of its lifecycle.
- Securely wipe organization data.
