

# Transform education with Gemini for Google Workspace

## A powerful new way of working, teaching, and learning with generative AI

Go from blank page to first draft, inspire learning with personalized content, quickly distill what's important, and so much more — all in a private and secure environment.

Use Gemini in Docs, Slides, Sheets, Gmail, and Meet, or chat with Gemini at to quickly become more productive, collaborative, and creative.

### Save time

Transform ideas into content, streamline project planning, and refine your message faster than ever before.

### Make learning more personal

Captivate each student by easily adjusting content to different knowledge levels, update lessons with topical themes, and provide feedback faster.

### Inspire creativity

Brainstorm fresh ideas and get inspiration for new approaches. Make a complex concept more digestible with unique imagery.

### Learn confidently

Empower students with in-the-moment support and real-time feedback, and let students get hands on with generative AI to prepare for an AI-driven future.

# 73%

of education and technology leaders agree that generative AI the **#1 tech enabler** for 2024.

CoSN, 2024

# \$3.42 ROI

for every \$1 invested in AI projects or initiatives by education and government institutions.

\*USD. IDC, 2023

# Gemini is your AI-powered assistant for education, helping to transform your daily tasks. ✨

## Instructional leader

Get help creating resources and brainstorming new ideas to empower educators.

- Quickly create content, like lesson plan templates, to share across your institution
- Easily differentiate content that's tailored to student interests or skill levels
- Summarize research and share it faster

## Educator

Create captivating and differentiated learning experiences, faster.

- Develop and share personalized feedback quicker
- Create differentiated class exercises and student assessments
- Brainstorm grant ideas and get help writing proposals
- Bring concepts to life with unique imagery

## IT director

Get help providing secure and innovative technology for students and staff.

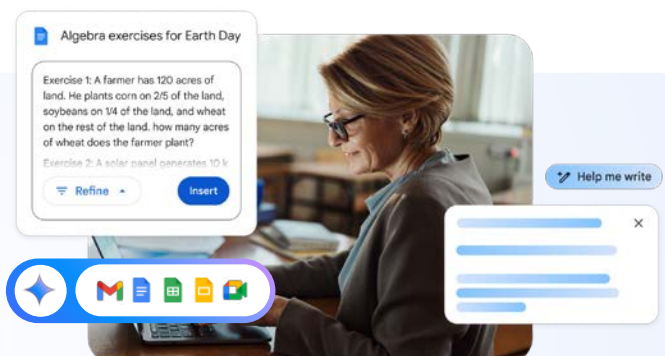

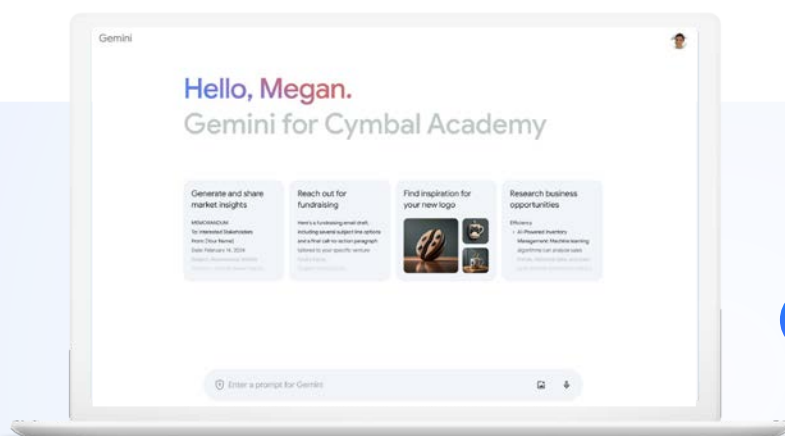

- Get recommendations for new security settings to implement
- Create how-to documentation for a variety of tech and tools
- Develop schedules for rolling out new policies
- Summarize emails and draft responses

## University student

Provide always-on academic support to help students on their learning journeys.

- Deepen understanding with customized study materials
- Use Gemini with OpenStax and Data Commons extensions, along with guided practice quizzes to learn more confidently with trusted source
- Practice using generative AI tools to prepare for an AI driven future.

## Enterprise-grade privacy and security

Google for Education provides industry-leading education technology that helps create a safer digital learning environment for every school, every classroom, and every student.

We've long shared robust privacy commitments that outline how we protect user data and prioritize privacy. Generative AI doesn't change these commitments — it actually reaffirms their importance.

Gemini for Google Workspace is covered under your Google Workspace for Education Terms of Service, meaning:

-  Schools own and control their data, not Google
-  Your data is not used for advertising or shared with other organizations
-  Your data is not reviewed by anyone to improve AI models

## Get Gemini for Google Workspace with a Gemini Education add-on.

Add Gemini Education to your existing Google Workspace for Education edition, for users 18 years and older, by purchasing one of the add-ons below.
