

# ITES-SW2: Superior Software Solutions for Today's Federal Government

## Complete IT Solutions

Connection® Public Sector Solutions, a rapid-response provider of IT products and services to the Federal Government, has been awarded an ITES-SW2 contract. Our Account Managers understand the complexities unique to your procurement process, and we are dedicated to helping you achieve your mission. Backed by in-depth technical expertise, our specialists have the experience and resources to help you find and deploy the right software solutions you need for today's military landscape.

Army Computer Hardware Enterprise Software and Solution (CHES), in coordination with the Army Contracting Command (ACC), Rock Island (RI), have established ITES-SW2. The fundamental purpose of the ITES-SW2 acquisition is to support the Army and all Federal agencies in their enterprise infrastructure and infostructure goals by leveraging commercial-off-the-shelf (COTS) software products and maintenance. ITES-SW2 covers a full range of IT software for client, server, storage, and network environments and software maintenance.

## Contract Highlights:

- Ordering is decentralized
- No associated fees
- Contract base period of 60 months, plus one 5-year option period, if exercised
- Ordering period opened October 12, 2020
- Ordering open to the Army, DoD, all other Federal Agencies and authorized Government Contractors supporting these agencies
- Ceiling: \$13,000,000,000.00
- Contract type: Firm Fixed IDIQ
