Simplify the Cloud with Connection As Your CSP

Azure
Expert
MSP

To seamlessly adopt cloud, you need a purchasing program as flexible as the cloud itself. Microsoft's Cloud Solution Provider (CSP) program gives you more flexibility than traditional programs through monthly or annual billing options and the ability to add or remove licenses as you need them. As your Cloud Solution Provider, Connection can further simplify the support and management of your cloud investments through our direct support team, access to experts, and value-added services such as Migration Services, Managed Services, and third-party add-ons.

Get Your FREE \$600 Professional Development Course

Sign a CSP agreement for Office 365 or Microsoft 365 and receive a free Hidden Gems of Microsoft: Communication, Collaboration, and Accessibility session as part of your new solution. It's our way of saying thank you!

Hidden Gems of Microsoft: Communication, Collaboration, and Accessibility

1-hour Virtual Professional Development for Teachers

Up to 70 Staff Members

\$600 Value

Imagine a learning environment where all students have access to the tools they need to be successful in the classroom. Learn how Microsoft's free agnostic platform tools can transform education by leveraging accessibility tools that use technology to improve instruction and meet the learning needs of students. In this session, participants will see how easy it is to create a learning environment that is accessible for everyone using Microsoft tools—like the Immersive Reader—paired with proven techniques to improve reading, writing, math, and communication skills for all students.

Additional Professional Development Courses Available for Purchase

Accessibility for All: Creating an Inclusive Classroom Virtual

1-hour Virtual Professional Development for Teachers

Up to 70 Staff Members

Making a learning environment accessible for everyone is a must, as today's classrooms are diverse and include English Language Learners and students with special needs. In fact, teachers already have technologies to help with this at their disposal. This session will help teachers recognize just how easy it is to ensure that all learning materials are accessible to everyone. These simple steps could make a significant impact for the people who need accessible materials. We know how important it is for educators to design authentic activities that acknowledge and accommodate for all variations of learners. Learning Tools brings advanced accessibility options for a wide range of students with proven success in reading and writing achievement. See how this and other tools bring the content to the student while removing barriers to learning. This virtual course will be delivered through a combination of synchronous and asynchronous collaboration.

Professional Development Microsoft Teacher Academy

Up to 30 On-site Staff Members

We offer 6-hour Microsoft Teacher Academies on the following topics:

- MIE Teacher Academy
- MIE Office 365 Academy
- Inclusive Classrooms Academy
- Remote Learning Academy

Join fellow educators in uncovering the possibilities within Microsoft applications, new trends, and more through courses led by our MIE Certified Professional Development Specialists. Together, we can transform education by streamlining communication and collaboration—with programs like Teams, OneDrive, OneNote, and more—to give students a voice while providing accessibility tools to level the playing field for all learners.
