

Take the 30-Day Challenge

Device as a Service with Windows 10

Outdated technology is a barrier to education, says almost 40% of surveyed educators.¹ Device as a Service equips students with the right technology tools to improve learning outcomes and reduce the overall expense and time of deployment.

Improve Teacher Productivity

Reduce device setup time by **84%**

68% of employees aren't currently satisfied with their technology experience

Save teachers **97 hours** in additional instructional time per year

Decrease IT Workload

Analytics that predict issues before they occur
IT-related savings per student per year: \$ 50*

77% of IT leaders spend too much time on 'keeping the lights on'.²

47% of IT professionals spend more than 4 hours a day addressing alerts, for example malware detection, phishing attempts, or failed logins.³

Strengthen Security

Reduce the risk of endpoint breaches and improves license compliance

64% experienced one or more successful endpoint attack over 12 months

102 average days to patch endpoint

\$440 average cost per compromised endpoint

Optimize IT Spend

67% lower costs for software

Organizations that adopted 'as a service' models spent less⁴

59% lower costs for services

Equips end users with appropriate devices and maintains an appropriately-sized device inventory

Pay only for what you use with one price per device, inclusive of the lifecycle support and services needed

Reduces accidental damage costs for devices

Anyone can do anything for 30 days.
What could our 30-day DaaS challenge do for you?
