User Presence Detection

Dell ExpressSign-in detects your presence when you're close by and uses Windows Hello™ to log you in automatically. When you walk away, it locks your PC for added security.

Enhanced privacy

SafeShutter automatically opens and closes the camera shutter by syncing to video conferencing applications.

Add another layer of intelligence with Dell Display Manager

Productive at every level: Easy Arrange allows you to easily tile multiple applications across one or more screens with 38 pre set window partitions and the ability to personalize up to five windows, giving you improved multitasking abilities.

Seamless transitions: The auto-restore feature remembers where you left off, so applications will go back to where you left them, even after you've unplugged.

More ways to manage: Asset management reports allow IT managers to quickly capture and track monitor information as well as configure multiple monitors at once through a single setup.

The key to convenience: Shortcut keys can save you even more time, letting you easily configure your display management settings so you can get to work faster.

Expanded compatibility: With support for multiple operating systems, Dell Display Manager helps you stay productive however you work.
