

WINDOWS 11 SE FOR EDUCATION + INTUNE

Two New Ways to Put Learning First

Windows 11 SE for Education

Now, more than ever, your students deserve equitable access to technology. For schools seeking cost-effective devices, Microsoft Windows 11 SE is a great choice. It is built for teachers who need a simple, distraction-free environment for their students and for school IT admins who need devices that are secure, easy to deploy and manage, and perform well all day across the changing conditions of a school year. This cloud-first operating system is optimized to deliver great education experiences and catered to the unique needs of K-8 education:

- A simplified and secure experience for students
- Prioritized student privacy
- Controlled app installation and full-screen app launch for fewer distractions
- Remote management through Microsoft Intune for Education
- Built for low-cost devices

Windows 11 SE is only available as a preinstalled OS on select low-cost education devices.

Microsoft Intune for Education

Microsoft Intune for Education is a cloud-based, mobile device management (MDM) service for schools. It helps your teachers and students stay productive on classroom devices and keeps school data secure. With Intune for Education, you can:

- Manage desktop and mobile devices students use to access classroom data
- Configure and assign the apps students use in the classroom
- Control how students and teachers access and share classroom information
- Apply school security requirements to devices and apps

Intune for Education also supports the Take a Test app, which allows teachers to assess student progress directly from classroom devices.

Windows 11 SE was designed—from the beginning—to answer the needs of education. While many administrators are comfortable with legacy management tools, most expect cloud-based, simplified management solutions. Windows 11 SE requires Intune for Education to ensure it is easy to manage and deploy.

Contact your Account Manager today for help finding low-cost devices featuring Microsoft Windows 11 SE that are supported by Intune for Education.
