# Easy Installation. Extraordinary Clarity.

ViewSonic PA504W
Projector

# Upgrade Your Projector Setup

## Powerful Clarity Meets Effortless Installation

Say goodbye to your old setup and hello to a long-lasting, crystal-clear projection solution with the ViewSonic® PA504W projector.

Featuring a 1.21 – 1.57 short throw ratio and WXGA resolution, **the versatile PA504W projector is designed to fit seamlessly into existing ceiling mounts for the Epson PowerLite 119W and similar models**.

Rather than doing a full teardown, installation can be as simple as unfastening your old projector and placing in the PA504W.

Enjoy long-lasting, consistent colors over an extended lifespan with best-in-class DLP® technology, 4,000 ANSI lumens of powerful brightness, comprehensive LAN control and so much more.

Don't miss this opportunity to give your students the clarity and brilliance they deserve.

## Effortlessly Replace Your Epson

With a 1.21 – 1.57 throw ratio, the ViewSonic® PA504W projector is designed to fit perfectly into existing ceiling mounts for the Epson Powerlite 119W and other similar projectors.

Easily upgrade your projector setup without doing a full teardown to install.

## Powerfully Bright

4,000 ANSI lumens of brightness illuminates images and adds brilliant clarity to presentations – even when they're being delivered in rooms with strong ambient lighting.

## Less Maintenance, More Consistent Colors

DLP® technology lets users enjoy more consistent colors and excellent contrast over an extended lifespan without having to worry about image yellowing. Plus, a sealed optical engine minimizes maintenance by eliminating the need to clean or replace an air filter.

## Vivid Colors

Experience a contrast ratio of 22,000:1 thanks to a state-of-the-art Texas Instruments .65" DMD chip. This high native contrast ratio delivers stunning visual depth, crystal-clear images and enhanced legibility.

## Comprehensive LAN Control

Centralize device management and streamline operations by connecting your projector to Crestron, AMX, PJ Link, ATEN or Extron systems.

## Multiple Connectivity Options

Dual HDMI ports enable educators to easily switch between different video sources as needed.

## ADD ONS

### PJ-WPD-700
### Wireless Screen Casting Kit

Say goodbye to cables and hello to a streamlined casting experience with the PJ-WPD-700 wireless screen casting kit. Enjoy casting from up to 98 ft. away – no software, network setup or app downloads required.
