

Connection[®]
we solve IT[™]

Make the meeting matter. Not the location.

Move on to Lenovo Smart Collaboration

Smarter
technology
for all

Lenovo

Most of us regularly take part in hybrid meetings, where one or more people connect remotely. It's quickly become a part of everyday life.

But it has highlighted shortfalls in the solutions we use, as they often lack:

Simplicity in setup and use

Engaging remote participation

Time-saving management

Scalability for different room sizes

“Are these settings right?”

“They’re struggling to join us”

“You sound muffled”

Lenovo Smart Collaboration takes the hassle out of hybrid meetings

Rise above the technicalities and concentrate on content, not how you're connecting. Give yourself and your teams the ability to join meetings at a touch, with seamless audiovisuals and collaboration.

Why you're better off choosing Lenovo

Know you're buying right

Easily find the perfect fit for specific working spaces and users from the industry's widest range of solutions.

Cost effective options

Choose all-in-one solutions or modularly upgrade existing setups, no matter what the platform.

Instant results

More seamless meetings that enhance efficiency.

Easier management

Simplified deployment plus the option to outsource it all.

Superior security

ThinkShield and Intel vPro® together ensure long-term security support.

With you all the way

- Easier management with **ThinkSmart Manager**, including bulk restarts and mobile app push notifications.
- The option of professional installation and maintenance with **ThinkSmart Start**.
- Use **Lenovo Professional Services Portfolio** to design, install and provide ongoing support.
- Purchase options through **Lenovo TruScale** for an average 20% TCO saving versus traditional CapEx purchase.

Find what's right for you

Choose from the industry's widest portfolio.
