

BOOST↑UP™ Wireless Charging Spots

Come In
WE'RE
OPEN

A NEW WAY TO CHARGE, BUT WHY IS IT GOOD FOR YOU?

- Wireless charging reduces the clutter, insecurity, and cost of cables
- Improves your client's experience by providing an additional service
- Allows people to charge while increasing time spent at your location
- Increases foot traffic on your premises
- Shows modernization and a business that is future-ready

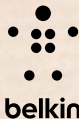

WHY CHOOSE BELKIN?

We are proud to work with industry leader
Wireless Power Consortium (Qi™) to improve the
wireless charging experience across all devices

Meets all Apple required and preferred
standards for wireless charging

#1

third-party maker of wireless charging accessories*

Pioneer in technology and innovation for over

35 years

*Belkin has sold more units than any other third-party wireless charging brand since January 2014.
The NPD Group, Inc. U.S. Retail Tracking Service, Mobile Power, Charger Wireless, January 5, 2014, to February 11, 2018.

THE BEAUTY OF BOOST↑UP WIRELESS CHARGING SPOTS

Qi certified for compatibility with Qi-enabled devices to deliver flawless performance

Optimized for Apple and Android™ devices to deliver fastest possible charging up to 10W

Premium components inside the charging spots deliver efficiency and provide added peace of mind

10W

The 10W transmitter coil delivers much faster charging than the 5W found in many standard chargers

Liquid- and dust-resistance maintains functionality and minimizes wear and tear

Cable management keeps cables hidden and securely fastened to avoid obstruction

Compatible with most lightweight cases up to 3mm

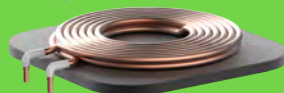

Protects users' data – no login or software download required

Installs easily into various surfaces, including wood, stone, and laminate

DESIGNED WITH QUALITY IN EVERY DETAIL

- Durable plastic cap with non-slip ring holds charging device in place
- Specially engineered film minimizes interference to protect phone functionality while charging
- Robust internal structure protects 10W transmitter coil
- Qi-certified 10W transmitter coil for faster wireless charging
- WPC-compliant intelligent chipset enhances performance and efficiency
- Electronics housing protects circuit board to provide added durability
- Gasket seals around mounting hole
- Robust housing ensures product longevity and simple installation

**INSTALLATION TAILORED
TO YOUR ENVIRONMENT**

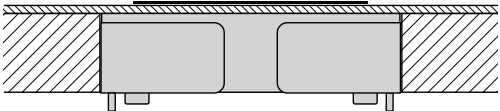

Choose from three easily installed options for a more versatile solution:

SURFACE INSTALLATION

RECESSED INSTALLATION

HIDDEN INSTALLATION

SURFACE INSTALLATION

B2B170 / B2B174 (4-Pack)

- Sits on top of surface
- Fits within a 3.25"/80mm circular hole in desk/table
- Non-slip exterior secures device while charging

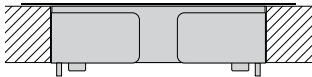

RECESSED INSTALLATION

B2B180 / B2B184 (4-Pack)

- Sits flush with surface
- Fits within 3.5"/90mm circular hole in desk/table
- Pad is covered with adhesive label, which can be customized for branding

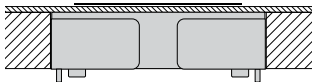

HIDDEN INSTALLATION

B2B180 / B2B184 (4-Pack)

- Sits below surface preserving aesthetic integrity of desk/table
- Fits within a 3.5"/90mm circular hole on underside of desk/table
- Minimal design allows for customized branding*

***Image for illustration purposes only.**
Actual surface design is customizable, at customer's discretion. Alternatively, white or black stickers are available from Belkin on request.
