Visibility into worldwide IT assets

How much time and money do you spend sourcing, shipping, and managing technology purchases worldwide? If you can't tell at a glance, you're already overspending.

It's time to reduce the inefficiency, cost, and complexity of your global IT procurement and services. When you partner with GlobalServe, you get instant access to resources and tools to solve your toughest challenges, including:

- Limited or no visibility into global IT spend
- Ensuring consistent service levels across global IT infrastructure
- Rising administrative and global shipping costs
- Difficulty managing IT vendors and service providers
- Currency conversion rate fluctuations
- Tax considerations
- Import/export issues

Seamlessly Connect Your World

From São Paulo to Mumbai to Beijing—and everywhere in between—GlobalServe can help you simplify the cost and complexity traditionally associated with sourcing and delivering technology products and services around the world. Leveraging OneSource™, a patented global IT procurement platform, you'll be able to streamline every aspect of your global IT footprint.

Global Procurement Solutions—One partnership gives you access to more than 500 suppliers across 174 countries to deliver on your hardware and software procurement needs. We also support OS implementation and provide lifecycle services, such as imaging and asset disposal.

Global Staff Augmentation—For one day, a few months, or even a full year, your organization can utilize our in-country, vetted service providers that can act as an extension of your staff. These personnel are skilled in end-user compute, server, storage, networking, and project management.

On-demand Fulfillment—Have a one-off request? Leverage our robust supply chain network to fulfill your ad hoc transactional needs—no contract required.
