CONNECTION IS A CLOUD SOLUTION PROVIDER

What it Means for K–12

Technology drives success in K–12 schools. As a direct Cloud Solution Provider, Connection brings a unique set of skills to help K–12 schools solve technology challenges, including overwhelmed IT staff and teachers struggling to learn Microsoft's classroom technology.

According to the EdTech Leadership 2021 Survey, 61% of districts were not prepared to provide remote technical support to students and families, further straining overwhelmed IT departments.* We can help.

When you choose Connection as your Cloud Solutions Provider, you get:

A Flexible, Fast, and Cost-effective Program

Monthly and annual billing with no minimum licensing requirement for your favorites like Microsoft 365, Office 365, and Azure.

Rapid Provisioning

Rapid provisioning, so products are available to assign within 24 hours rather than waiting 3–5 days for an order to process and licenses to be delivered.

Option to Scale Up and Down

Ability to scale product quantities up or down at any moment in a self-service dashboard, so that you only ever pay for what you need each month.

24x7 Direct Support

3-Tier 24x7 technical and product support included at no extra charge, allowing Connection to resolve issues quickly without you having to call Microsoft directly.

Services that Meet You Where You Are

With industry recognized expertise like Azure Expert Managed Services, Microsoft 365 Services, and training services—you can get more value out of your licensing investments.
