Lenovo

Power up your small business productivity

Lenovo moves at the speed of small business.
Now that's **smarter**.

 **Windows 11**

Lenovo recommends
Windows 11 Pro for Business.

One size does not fit all, especially when you're small. If resources are tight, it can be difficult dedicating what's needed for technology management. But productivity often hinges on technology working the way it should.

Lenovo makes it easy

Whether you want us to handle the help desk while you focus on higher-value initiatives or you just need a few software add-ons to simplify workflows, we're flexible and manage your technology however you need it. Our wide range of end-to-end services and tools help maximize the lifetime value of your technology so you can get back to business.

Set up everyone for success, right from the start

The latest **Lenovo ThinkPad® and ThinkBook® devices with Windows 11** are built to match even the busiest workday. Purposeful features and functionality deliver enhanced portability and reliability, while AI integration with Microsoft Teams and other collaboration apps streamlines the user experience for peak productivity.

Provision Lenovo devices running Windows 11 Pro for greater peace of mind using **Windows Autopilot** zero-touch deployment. Employees simply unbox their device and start working.

Windows 11 Pro for Business.

Access essential productivity tools with less hassle

The tools your employees need to succeed are unique to your goals and challenges. That's why Lenovo offers a wide array of solutions and services so you're able to support your business from anywhere.

Utilize

Lenovo's exclusive software add-ons for business-critical applications like **Dropbox** and **DocuSign** can help save you time, money, and the hassle of multiple vendors.

A range of **M365** packages designed for small businesses and available through Lenovo let you pick which applications, services, and cloud file storage solutions you need, right when you need them.

- **Teams**
- **Outlook**
- **Excel**
- **Word**
- **PowerPoint**
- **Access**
- **Publisher**
- **Exchange**
- **OneDrive**
- **SharePoint**

Migrate

Lenovo Migration Services for M365 can easily and expertly move your data from legacy platforms to M365 tenants.

- ✓ **Standard:** Migration, mailboxes, distribution lists, public folders, M365 tenant configuration
- ✓ **Advanced:** Everything included in Standard plus OneDrive migration (One to OneDrive, Google to OneDrive)
- ✓ **Professional:** Everything included in Advanced plus SharePoint and Teams setup and migration

Manage

When you buy **Lenovo Managed Services for M365**, you free up your resources from the burden of managing software support. We can also provide a more optimized and consistent delivery support model that improves your end users' productivity and experience.

Lenovo Backup for M365 provides comprehensive, automated data backup and managed recovery — both at a user level for Microsoft Exchange and OneDrive and at an organizational level for SharePoint and Teams. Rest easy knowing our experts can always retrieve lost data so your business keeps running.

Lenovo Managed Support for M365 is a subscription service that connects your business to M365 experts who ensure everyone's applications are running efficiently, productively, and securely.

- **Advanced Support:** Break-fix and troubleshooting support, Advanced Level 2 support for M365, and more
- **Professional Support:** All Advanced offerings, plus added benefits like anti-phishing training for employees and service request management

Trust that your technology is taken care of

To work confidently across any environment, you need to procure, secure, and manage devices remotely. Lenovo can help every step of the way.

Tech support

Lenovo Premier Support connects your employees who need support with the expert technicians who are best prepared to provide it. Expect better, faster solutions that work every time.

Lenovo Premier Support Plus leverages AI-powered insights designed to meet your support needs 24/7/365.

Device support

Lenovo Smart Performance improves internet and network performance on individual PCs, constantly correcting access issues, improving connectivity, removing extraneous files that slow response times, and resolving major network issues.

Lifecycle support

Accidental Damage Protection offers multiple repairs for accidental damage or a single device replacement. With a predictable upfront investment, you can avoid unplanned costs and decrease downtime.

Lenovo TruScale Device as a Service (Daas) gives you access to a broad range of solutions and flexible payment options. Trust you've deployed the right technology and plan for future growth knowing you have the flexibility and scalability you need.

Your go-to partner for **smarter** productivity

Lenovo understands small business. We even have a free program for our small business customers, called **Lenovo Pro**, that features exclusive offers and resources to stay ahead, as well as 1:1 access to dedicated business advisors.

Our solutions and services can help you improve productivity, centralize all your essential applications, and help employees perform their best — wherever the work happens.

Contact your Lenovo small business expert today and see what we can achieve together.
