

Empower educators. Inspire learning. Deliver impact.

Everyone deserves access to great learning experiences. Google for Education helps you transform teaching and learning, so each student can realize their full potential.

Google for Education is committed to:

Creating more secure, safer digital learning environments

Get industry-leading education technology – and enterprise-grade security – that helps ensure every school, classroom, and student remains safe.

Helping every student learn how they learn best

Accessibility tools that are easy to find, set, and use mean every student can get individualized support and have an equitable learning experience.

Connecting families and educators for lifelong learning

Strengthen the connection between educators, families, and students – and enhance learning – with secure, integrated, easy-to-use tools and resources.

Building education technology that's easy to use – and easy on the planet

Built on the world's greenest cloud, Google for Education contributes to future commitments such as Google becoming carbon-free by 2030.

Powering student potential

Amplify educator impact and make learning more personal with secure and scalable adaptive learning technology and tools for all of your students.

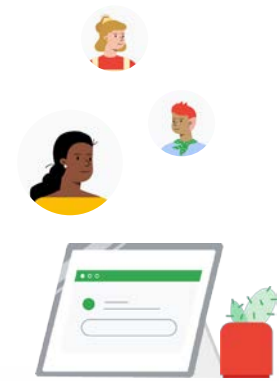

Helping communities provide equitable access to learning

Provide everyone with access to current, innovative learning materials anytime, anywhere with cloud-based tools that work even with poor connections or in remote locations.

Unlock student potential with devices, tools, and resources that create an all-in-one learning environment.

Google for Education is the right choice

- **It's built on the safest, most secure cloud.** Our cloud-based tools mean schools always have the newest software, the latest security updates, automatic backups, and 24/7, enterprise-grade cyber protection.
- **We'll always offer a free version.** We believe all students should have equitable access to the latest education technology.
- **It includes free training and professional development resources for educators.** From advanced certifications to the global network of Google Educator Groups, educators can hone their practice, build new skills, and maximize their impact.

“Technology alone will not improve education, but it can be a powerful part of the solution.”

Sundar Pichai, CEO, Google
